

DISHWASHER

Use of the Dishwasher

Our Dishwasher is a commercial type and not a domestic type which you probably are more familiar with.

Commercial dishwashers function entirely differently to domestic ones and therefore we would ask you to please adhere to the following.

Our dishwasher is designed for glasses but we do understand that our customers do use it for plates and utensils. If you should use for plates and utensils please RINSE them thoroughly before putting in the dishwasher. This will avoid the pipes becoming blocked.

The instructions 'on how to use' are immediately above the dishwasher, adjacent to the window – please read them carefully and follow them exactly.
