

# Decorating the Hall & Stage

Lansdown Hall is a **Grade II listed building** and most of the fabric is well over 100 years old. Please respect and love it.

There are fixings along the walls and on each roof beam support where you can hang your decorations.

1. Pairs of hooks at the side of each window\* approx. 2 metres off the ground. Each pair are 1.5metres apart and approx. 1 metre between the pairs.
2. Hooks on each roof beam support\* approx. 3.5 metres off the ground and about 30cm proud of the wall.

These hooks can be easily reached with a 2m step ladder.

Please note: Any materials used must be Fire-Retardant or sprayed with such a liquid.

*\*See pics*

No wall fixings are permitted and use of the following is strictly prohibited:

- Blue Tac / White Tac
- Stapleguns
- Gaffer/Duck Tape
- Screws or Nails

A4 Perspex display frames are available for posters and programmes on request.

Please discuss your ideas with the Manager, as we will always do all we can to help you achieve the best look possible.
